

SAUSAL CREEK: THE LAST MILLION YEARS OR SO

WEDNESDAY SEPTEMBER 18

7:00 – 9:00 P.M.

DIMOND LIBRARY BRANCH 3565 FRUITVALE AVE.

ABOUT:

Oakland sits in a dynamic geological setting, and our streams have had to be nimble to deal with its tectonic changes. This talk will take a look at Sausal Creek from head to foot, focusing on some of its peculiarities that offer clues to its deep history, in the Pleistocene epoch and beyond.
