List compiled by Karen Paulsell, with information from many other native plant lovers. Special thanks to Jeff Greenhouse for his ID of many species in Joaquin Miller Comments to: kpaulsell@pacbell.net

Notes:

* Dimond Canyon includes Dimond Park, but excludes the demo garden

* Shepherd Canyon includes Montclair RR Trail & Montclair Park

* "Planted" data is 2 years out of date

* Most of Joaquin Miller Park is in the Sausal Creek watershed, except the portion between Browning Monument and Joaquin Miller Road. A few species occur there so close to the border that we have not yet determined whether they are technically in the Sausal Creek watershed.
